

Palm Dashboard

Specialty Fats

Our specialty fats business has been a member of RSPO since 2006 and supply chain certified since 2011. 100% of its palm oil is physically RSPO certified with the vast majority of procurement coming from Identity Preserved mills, ensuring the highest global environmental and social standards are met.

Palm Oil Supply Chains

Dairy

Our dairy operation in Malaysia is RSPO certified since 2021. Palm oil is used for the manufacture of fat-filled milk powder. We sourced 20% RPSO certified volumes in 2022 and aim for a steady annual increase to build a stable supply chain and secure 100% RSPO certified volumes by 2025 at the latest

Timebound Action Plan

100%

Sourcing of RSPO certified products ACOP 2022 target met ✓

100%

CSPKO uptake achieved and maintained since 2019 ✓

100%

CSPKO uptake achieved and maintained since 2017 ✓

2021

Initial RSPO certification achieved ✓

2022

20% certified palm oil

2025

100% certified palm oil
