

Palm Dashboard

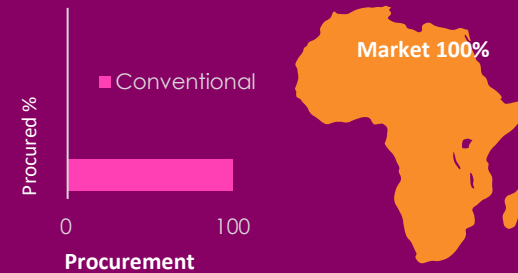

Specialty Fats

Our specialty fats business has been a member of RSPO since 2006 and supply chain certified since 2011. 100% of its palm oil is physically RSPO certified with the vast majority of procurement coming from Identity Preserved mills, ensuring the highest global environmental and social standards are met.

Palm Oil Supply Chains

Dairy

Our dairy operation in Malaysia uses palm oil in the manufacture of fat-filled milk powder. As well as supplying clean, hygienic, wholesome and fully-traceable milk, we are switching to RSPO certified palm oil in the production of these milk powders and aim to achieve 80% SG certified palm oil by 2025.

Timebound Action Plan

100%

Sourcing of RSPO certified products ACOP 2020 target met ✓

100%

CSPKO uptake achieved and maintained since 2019 ✓

100%

CSPKO uptake achieved and maintained since 2017 ✓

Timebound Action Plan

2021

Initial RSPO certification achieved ✓

2022

20% SG certified palm oil

2025

80% SG certified palm oil
